

Potting pansies and planting seeds at St Winifreds Care Home

On Wednesday 31 March, some of our ladies at St Winifreds Care Home spent the afternoon in our garden potting plants and seeds together.

They thoroughly enjoyed feeling the **warm weather** on their faces and relaxing with a lovely cup of tea afterwards.

Our **potted pansies** look really pretty and we'll be tending our seeds over the coming weeks. It's lovely to see such splashes of colour in our garden.
