

## Some splashes of colour at St Winifreds Care Home

Today we spent our morning out the front of St Winifreds Care Home, doing some planting to make it look bright and cheerful with some pretty new flowers.

**Marjorie** really enjoyed herself, **digging and sweeping** away, and we all enjoyed a **cup of coffee** after all our hard work.

It's lovely to see such lovely splashes of colour out the front of our **Home** and we're looking forward to spending more time outside when the weather gets warmer.
