

St Winifreds Care Home residents enjoy watching the coronation

A number of our St Winifreds Care Home residents joined our Recreation and Well-Being Team in the dining room to watch the coronation of King Charles III on Saturday 6 May.

We had **nibbles and drinks to toast the king** and as the event was happening during lunch, we moved our dining room around so everyone could watch.

The **service was on television in all our units** and our residents enjoyed discussing how the British always do these occasions in style!
