

St Winifreds Care Home residents experiment with resin art

After seeing some great resin crafts taking place at other Nellsar Homes, we wanted to give it a go ourselves here at St Winifreds Care Home, as it looks great fun with amazing results.

A few of us tried it to start with, using a **starter kit** which included the resin and moulds. We poured the resin into the shapes we wanted and added **flowers** and **glitter** to create our pieces.

We made key rings as **keepsakes** for one of our families who have just lost a loved one, and others just for fun. We also made a coaster for a team member's birthday.

We're looking forward to seeing the end results and can't wait to try more!
